Welcome to ONVIF!

Explore the many opportunities and privileges for your organization with your ONVIF membership.

ONVIF Member E-News

Stay on top of what's going on by signing yourself up to (or telling your colleagues to sign up to) the mailing list on the ONVIF Member Portal. Alternatively, you can contact the Helpdesk and request to be added to the member e-news list.

ONVIF Member Portal

The Primary, Secondary, and Technical contacts will receive an email to create a password for the Member Portal. If you did not receive a notification, please contact the Helpdesk.

The Primary, Secondary or Technical contacts will then be able to give others in the company access to the portal by adding new users on the Member Portal.

The Member Portal also features a document repository that includes ONVIF logo files, Word and PowerPoint ONVIF templates, and guideline and policy documents, including the ONVIF Brand Standards.

ONVIF Specification Development on GitHub

The ONVIF Technical Committee utilizes GitHub for the development of network interface specifications and related schema files. All member levels are welcome to collaborate on GitHub, and please review our guidelines for participation.

ONVIF Conformant Products

Conformance to ONVIF specifications is with self-declaration by the ONVIF member for their manufactured/ branded products. The ONVIF device and client test tools are also downloadable from the ONVIF Member Portal. For more information, read the ONVIF Conformance Process Specification, and an overview of the ONVIF Member Conformance Process.

ONVIF on Social Media

Please take a moment to connect with ONVIF and support us on our various social media platforms: Twitter, LinkedIn, Facebook, YouTube and Sina Weibo (微博).

Using the ONVIF Brand

It's important that members review and follow the ONVIF brand standards to ensure proper usage of ONVIF logos and trademarks. They will help guide you to successfully build the ONVIF brand in your global market.

The ONVIF trademarks and logos are owned by ONVIF. ONVIF grants access to them for the shared benefit of all members so it is the responsibility of all member companies to correctly implement and use the logos and trademarks and to monitor the industry for correct usage. The ONVIF Brand Standards and logos are available on the ONVIF Member Portal.

Join Committees and Working Groups Today

All Full and Contributing Members may participate in committees and working groups.

- *Full Members* may attend, contribute, chair, vote in committees and work groups, as well as participate as a steering committee member and vote for a steering committee member.
- *Contributing Members* may attend and contribute to committee and working group activities; vote for committee members (except for Steering Committee).

ONVIF has four committees and a variety of working groups. We encourage all Full and Contributing Members to get involved in work groups to maximize your membership. A list of working groups can be found on the ONVIF website and you may contact the Helpdesk if you are interested in participating.

ONVIF Working Group Platform (wush)

The Working Group Platform is a web-based tool for developers to collaborate, share documents, track issues and tasks. The collaborative platform provides a Wiki with information about working groups that can be maintained and extended by the working group members. It is open to all working group members as well as all ONVIF Full and Contributing Members. Access to the Working Group platform is granted by sending a request to the Helpdesk.
